They pay one firm \$100 a year for the malodorous mess, which amounts to several bushels each day. Heretofore it cost this firm of egg dealers \$800 a year to get rid of this undesirable "stock." Duck's eggs and goose eggs are in great demand at Easter and during Lent. Duck's eggs bring about twice the current price for hen's eggs, and the goose preduct commands four times that of the humbler hen.

Hens' eggs are sorted into five or six qualities, age and condition making the difference, and this may account for the fact that while a placard announces from your grocer's window that he sells 'Fresh eggs, 18 for 25 cents," eggs are always itemized in your bill 'Eggs, one down 39 cents." dozen, 82 cents."

From Carroli D. Wright's recently published statutes in regard to the condition of age-worker employed by the railroads of this country, it appears that the average income is \$285 per year, while the man is weeking but 147 days, the remainion of the year terms spent in forced idleness. The lowest pay reported was that of a laborer, who received but \$133 inst year, while the hirbest skery paid was to a locomotive enrieser—\$4,63. The average income of the \$800,000 resirons laborers in this country is not quite \$6 in day, while the hundreds of militons of dollars produced by their labor go into the coffers of a sing composed of a few dozen capitalistic juggiets.
